

MISSION

To be the leading player in the own market with the aim of improving everyday life through a superior quality fresh food offer.

- **Excellent Recipes**
- **Always Tasty**
- **Immediately Ready**

HISTORY

Gourmet Italian Food was founded in July 2021 through the merger of **Eurochef Italia** and **La Gastronomica**, both leading producers of high-quality fresh and frozen ready meals.

Later, the Group added **Cucina Nostrana**, manufacturer of high quality fresh ready meals and sandwiches, **Fabian**, specialized in fresh sandwiches & panini, and **Deppieri**, a sandwich bread maker.

In June 2023 we added **F.I.R.M.A Italia**, market leader in the ambient ready meals market, with a strong export position.

Gourmet Italian Food now is, by far, the Italian Leading Group manufacturer of fresh, high-quality ready meals and sandwiches!

COMPANIES

The Group is composed of six Italian companies, each with its own history, technologies and know-how that have made them market leaders in their own sector over the years.

OUR OFFER

One of the most comprehensive and complementary product range on the market, widening from **ready meals (fresh, frozen & ambient)** to **sandwiches** and **bread**.

A single reference player able to satisfy all consumption needs at any time of the day; it can be at home or on-the-go, alone or in the company of your beloved ones, we can always offer to the consumer the highest quality food solution.

- **First and second courses, cold dishes, side dishes, sauces and desserts;**
- **Sandwiches, panini, brioche and many others;**
- **Bread for sandwiches.**

All specialties created every day by expert hands, with scrupulous attention to the quality of the ingredients used and the Italian culinary tradition.

Sustainability, italianness, tradition and innovation are the intrinsic characteristics of our DNA.

OUR STRENGTH

PRODUCTION

Each company works independently, with state-of-the-art technology and strict process control, managing all phases of the production cycle in-house. All this, together with the careful selection of raw materials and the short and controlled supply chain, guarantees the full satisfaction of the end consumer.

FLEXIBILITY

Each company is able to adapt production to best meet market demands.

SYNERGIES

Industrial and commercial companies, to ensure excellence in service and the ability to serve all target channels. Reduced lead times, optimised logistics and punctual deliveries.

RELIABILITY

We offer the best to our customers by having quality certifications to guarantee the safety and goodness of our raw materials and finished products.
