

HISTORY

Gourmet Italian Food was founded in July 2021 through the union of **Eurochef Italia** and **La Gastronomica**, leading producers of high-quality fresh, ultra-fresh and frozen ready-to-eat gastronomy.

A short time later, the group was joined by **Fabian**, producer of fresh savoury snacks, **Cucina Nostrana**, producer of very fresh gastronomy, and **Deppieri**, specialising in the production of bread in cassettes.

In July 2023, the GIF Group was joined by **F.I.R.M.A Italia**, which produces a wide range of ambient ready meals with typical Italian recipes, focused on export.

GIF is confirmed as the leading Group in the production of High-Quality Italian Gastronomy!

MISSION

Offer a range of innovative, sustainable, high quality meal solutions.

Spread Italian love, culture and respect for people and earth.

- **Excellent Recipes**
- **Always Tasty**
- **Ready to eat**

OUR OFFER

One of the most complete and complementary product ranges on the market, ranging from **ready meals (fresh, frozen & ambient)** to savoury **snacks** and **bread in cassettes**.

A very wide range available in formats suited to the needs of every distribution channel, from Retail to Ho.re.Ca to Industry.

A single reference player to satisfy consumption needs at every moment of the day: from savoury breakfast to a break away from home, from a tasty lunch to a gourmet dinner, alone or in company.

- **First and second courses, cold dishes, side dishes, sauces and desserts, fresh & frozen;**
- **Sandwiches and panini, fresh;**
- **Bread for sandwiches ambient & frozen.**
- **Ready-made ambient dishes.**

Sustainability, Italianity, Quality, Tradition and Innovation are the characteristics of our DNA.

OUR STRENGTH

PRODUCTION

Each manufacturing plant works independently, with state-of-the-art technology and strict process control, managing all phases of the production cycle in-house. All this, together with the careful selection of raw materials and the short and controlled supply chain, guarantees the full satisfaction of the end consumer.

FLEXIBILITY

Each manufacturing plant is able to adapt production to best meet market demands.

SYNERGIES

Industrial and commercial manufacturing plant, to ensure excellence in service and the ability to serve all target channels. Reduced lead times, optimized logistics and punctual deliveries.

RELIABILITY

We offer the best to our customers by having quality certifications to guarantee the safety and goodness of our raw materials and finished products.
